WHY US?

Working with The Interior Design Haus means partnering with professionals dedicated to bringing style and harmony to your home. We pride ourselves on our ability to listen to clients, interpret their desires, and translate them into stunning interiors that are both functional and beautiful.

With a background in sales, marketing, and design, founder Leigh Edwards has always been driven by a passion for creativity and a keen eye for detail. Recently, she made a pivotal career change, dedicating herself to the world of interior design and her psychology degree plays a crucial role in this transition, providing a deeper understanding of how to create spaces that not only look beautiful but also enhance well-being and functionality.

Over 20 years as a self-employed marketing and design consultant, along with expertise in colour and design theory, spatial planning, project management, proficiency with the Adobe Creative Suite and other design software applications, give her a unique perspective on crafting aesthetically pleasing and strategically aligned spaces.

Recently, Leigh expanded her skills at the Interior Design Institute, ensuring that every project reflects her clients' vision. This new direction allows her to fully embrace her love of interiors, creating environments that are as practical as they are visually stunning.

Transform your home with The Interior Design Haus and experience the difference that professional design can make.
